

Japan Forum for Internationalization of Universities (JFIU)

大学の国際化促進フォーラムについて

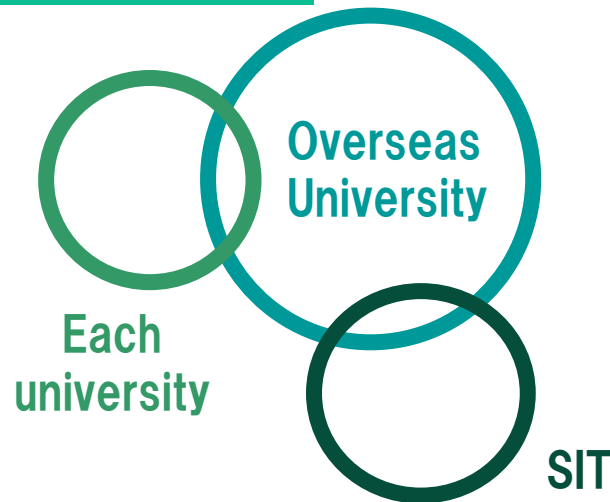

About JFIU

- Established in September 2021 to share the various initiatives and achievements of Top Global Universities and to strengthen cooperation among Japanese universities
- 19 projects are being managed within the framework of this forum
- SIT was selected as one the organizer universities to promote projects for dissemination of global Project Based Learning (gPBL) methods.

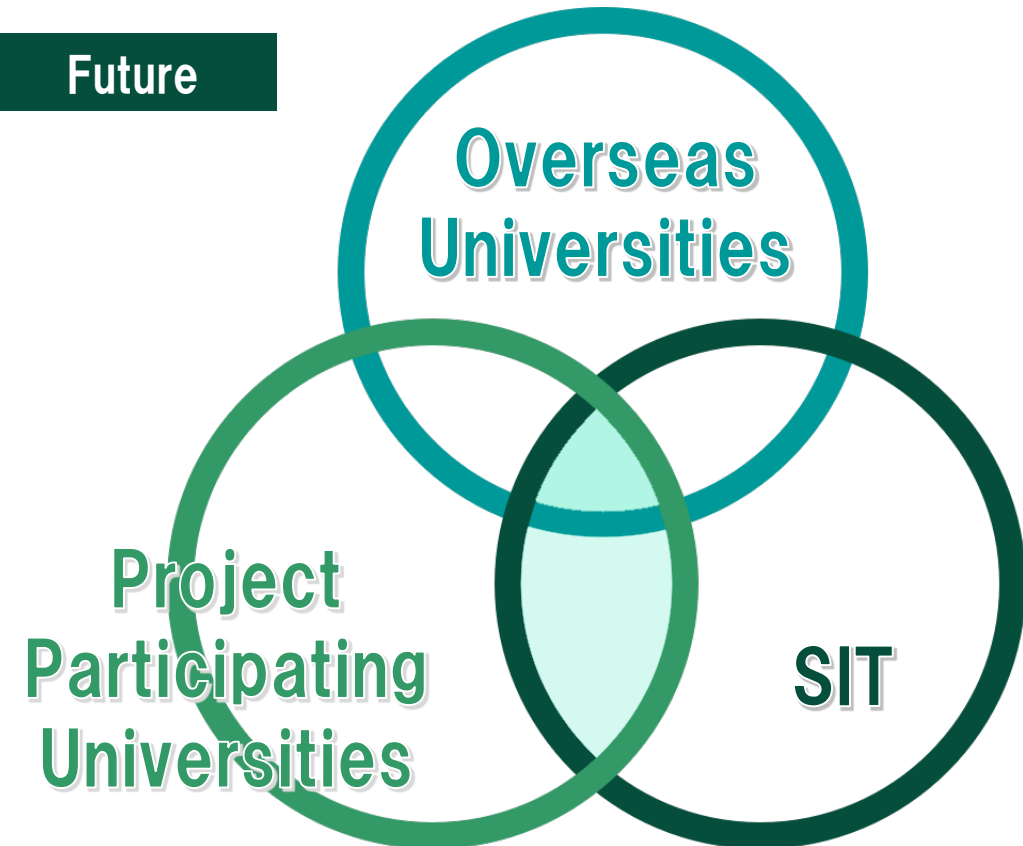

Conceptual Diagram of the Project

Status Quo

Each university makes its own efforts to develop partnerships and implement the program.

Future

Promote the joint implementation of global PBL in the same field and between disciplines by sharing methods and good practices among universities.

■ *Future initiatives planned*

1

Liaison meetings with participating universities

2

Seminars for those involved in PBL

3

Creation of a platform for publicizing PBL programs and recruiting participants

4

Promotion and enhancement of industry-academia-government gPBL

■ *Benefits of project activation*

For Universities in Japan

- Learn gPBL know-how from other universities
- Create new collaborative relationships with overseas universities by sharing programs
- Participate in programs in fields not covered by your own university
- Collaborate with other universities to promote interdisciplinary programs
- Exchange researchers for research and education

For Overseas Partner Universities

- Increase in the number of international exchange programs students can participate in
- Increase the number of potential study abroad destinations for students by strengthening inter-university collaboration
- Future exchange of researchers
